### 01 Almighty God!

You're the Beginning and the End  
and You'll judge the hearts of men  
What an Awesome Mighty Power to comprehend

You are coming back to Reign  
and You will comfort every pain  
You're the mighty King Who'll never change

You are the Author of life  
and You have chosen a bride  
You bring revelation and truth You magnify

The Eternal presence, always there  
The Almighty One Who's fair  
And Your Beloved Son, all my sins He bears...

Almighty God  
Almighty God  
You are Sovereign  
ALMIGHTY GOD!

Your mystery will never end  
and You'll eternally be a friend  
and You're coming back to rule, You will descend

& I will bow the knee  
Before Your Awesome Majesty  
You are King of Kings and You'll reign for Eternity...

Almighty God  
Almighty God  
You are Sovereign  
ALMIGHTY GOD!!!

### 02 Warrior King

Forget your Blonde Haired Blue Eyed Jesus  
The Handsome Sweet One in the pictures  
Bring on the Holy Death Defier  
The All Powerful, the Omnipotent Messiah

Between the Seven Golden Lampstands  
Stands one like a Son of Man  
His Eyes are blazing fire  
He holds 7 Stars in His Hands

Clothed in a Robe to His feet  
Which are burnished bronze in Fire  
His Hair is white like wool or snow  
Yahushua the Messiah

Out of His Mouth comes a two edged sword  
His face shines like the Sun  
His voice is like rushing waters  
This is Jesus, Revelation Chapter 1

Awesome, Immortal, Elohim  
Jesus, Messiah, Warrior King

Awesome, immortal, Almighty Son  
King of Heaven, the Battle is Won  
Councillor, Lover, Good News Messiah  
Creator of All take us Higher  
Alpha, Omega, Eternal Truth  
You rose from the Grave as living Proof  
and Every knee will bow, before your throne  
Every Eye will see and all will know!!!

(That You're) Awesome, Immortal, Elohim  
Jesus, Messiah, Warrior King  
Yahweh, Yehova, Mighty to Reign  
Jesus, Yahushua, You're coming again

You're gonna split the sky when you come  
Holy and Righteous Beloved Son  
He'll rule in Justice, truth and Peace  
He is King of Kings, He is King of Kings for Eternity

### 03 WOW! Millennium of Love

The Heavens will recede  
In rides the King on His white steed  
The armies of the Earth will faint with fear  
The millennial reign of Jesus Christ is here

A 1000 years of peace  
A 1000 years of truth  
A 1000 years of love  
A millennium of every good thing that  
Jesus brings to Earth from Heaven above

And God is here to stay  
The King of Heaven reigns  
Plenty for all with His just and righteous rule  
And everyone will bow 'cos all will know it's true

What's that gonna be like?  
when Jesus comes from the clouds  
What's that gonna be like?  
What's that gonna be like?  
Well the only word I can find is WOW!

A 1000 years of peace  
A 1000 years of truth  
A millennium of love

JESUS IS COMING!

#### 4 **Encore at the End of Time**

Sky Splittin', Earth Shakin'  
Holy rollin' Spirit of God  
Time Tripping, Life Givin'  
I see them try and put You in a box  
Future's Callin', Creation is Yearnin'  
This crazy world of Yours is outta line  
Star Spinnin', Cosmos Quakin'  
You can't argue with the Author of Time

You're not just an ivory tower  
You're and Awesome and Mighty Power  
And in the blink of an eye,  
You'll take us into the sky  
'Cos Heaven awaits your Saints and  
everything says NOW!

Heart Judgin', Mind Bogglin'  
Eternal One of blinding white  
Truth givin', dream makin'  
Author of Creation and Life

An open door, my face on the floor  
The glory goes to You  
Down on my knee, in eternity  
Earth will look small in rear view  
You're not just an Ivory Tower...

#### 5 **I'll Carry my Cross**

My crazy, crazy world has gone wild  
I missed the truth by a mile  
Now my blinkers are off  
When will this craziness stop  
The Saints have all gone  
and I can see where I was wrong  
Oh God where are you in this mess?  
I'm scared of the future I confess

Everything's dark but I see the light  
This world's gone wrong and I choose what's right  
I'll stand stand for truth, and I know the cost  
I'll pay with my life, I'll carry my cross

Evil lurks at every turn  
I'm lost and I'm helpless and I'll burn  
Without Jesus You're my only hope  
There's nothing else here at the end of this rope

I won't bow to this evil  
I won't take the mark  
I won't worship a man  
I'd rather starve

I won't kneel to an idol  
I won't follow the crowd  
I will speak of Jesus  
And I will lay my life down  
Forgive me my sin  
I will not deny You  
to You only I'll bow  
'Cos now I see the truth

#### 6 **Turn Off the Static**

It hit me square between the eyes,  
if there's no God, there's no meaning in life  
if there's no God then there's no purpose  
and every move I make is worthless

It hit me like a ton of bricks  
Unless I find God it's meaningless  
There's no good or bad, no right or wrong  
Everybody lies and the rich stay strong

Turn off the static  
and embrace the panoramic  
'cos in You life turns to widescreen  
Yes in You life finds true meaning

I'm beat up and broken and I'm cast down  
Oh God I need You right here, right now  
I see the devil hard at work destroying this place  
I know You'll crush him one of these days

'cos You promised You'd be there  
and I'm not backing down  
God I need you, and I'm pushing through  
Oh God I need You, Oh God I need You around

#### 65 **The End (1)**

Skeptics, sinners, mockers,  
come and gather round  
planet earth is crumblin'  
there's no safety to be found  
yeah, come sit with the human  
the faithless and the lost  
come join the souls that wrecked our world  
and didn't count the cost

It was in the knowledge, in the travel  
family breakdown, on the streets of Israel  
there in Famine, in pollution  
in the war, the population explosion  
It was in the weather, in the EU  
the ozone layer, the return of the Jews  
It was in computing and global warming,  
but we didn't heed the warning.

And this time it really is the end of the world

Don't tell me the resources  
weren't there for us to feed  
Don't tell me that the war games  
they were always fought for peace  
or tell me sciences advances  
were all for mankind's good  
we talk about how far we come  
here's the bitter taste of proof

It was in the earthquakes, in the sex,  
the cashless society and in big business  
it was in the droughts, in the clones,  
the war on terror, it's been in the codes  
there in crime, in disease  
in GM and in the refugees  
in the cults and the New Age dawning,  
but we didn't heed the warning

And this time it really is the end of the world

#### 66 **When the Bombs Fall**

When the bombs fall  
I won't feign surprise  
It won't come as a shock  
'cos I never believed their lies

When the bombs fall  
and they could fall anytime  
They're gonn end it all  
for a 1/3 of mankind

When the Bombs fall  
Don't have the wool pulled over your eyes  
When the bombs fall  
You'll wonder how you've been so blind

When the bombs fall  
And if they fall on me my dear  
You'd better look to the sky  
'cos your redemption draws near

### 63 New Jerusalem

I know I generally churn out, doom and gloom  
but just for once, I'm gonna change my tune  
there's a silver lining to this big dark cloud  
a world event to make the humble proud

The New Jerusalem will come down from the skies  
Behold the dwelling of God is with men  
and He will wipe every tear from their eyes  
The Alpha and Omega, the Beginning and End

1,000 years the lion will lie with the lamb  
1,000 years of rule on earth from the great I AM  
Living waters flowing from the throne of God  
The tree of life is ours again, since Adam it's been gone

There'll be no mourning, crying or pain  
for the first order of things have passed away  
and He who sits on the throne says I make all things new  
He said to write these words 'cos they're faithful and true

1,500 square miles of glass and gold  
every precious rock the foundation stone  
There'll be no temple, for the glory of God is the light  
I will be their God, they will be my child

The New Jerusalem will come down from the skies  
Behold the dwelling of God is with men  
and He will wipe every tear from their eyes  
The Alpha and Omega, the Beginning and End

### 64 Still Got Questions

Creation stretches before me  
as a testament to you  
my very being, my very soul  
the universe, the molecule  
I believe in you, there's so much proof  
but I can't get off my mind  
for a God who's everywhere  
why are you so hard to find.

I believe you died to pay the price  
and you're the author of it all  
if You're outside time and space  
You must have known Adam would fall  
so You must have seen the suffering  
we'd inflict upon ourselves  
yet you left us flying on this ball  
to create a living hell

I've found some truth that will stand the test of time  
when all else falls  
but between the lines the detail lies  
I seem to hit brick walls  
I've seen some light and I've found some rock  
a solid place to stand  
but I still got questions  
I don't understand

I believe You're coming back again  
with every fibre of my heart  
to make the whole world new again  
to bring a brand new start  
but why must so many die  
why have you let it go this far  
why did you give us rope to hang ourselves  
when you know the way we are

And for a God of love  
who is merciful and true  
Your judgements seem so very harsh  
for those that don't find you

### 7 Everything Shouts God!

if I just stop and contemplate  
the sheer immensity of what's before my eyes  
when I look at the stars, the sun, the universe  
the whole thing blows my mind.  
who made Heaven and Earth?  
everything says design...

if I contemplate the awe of my existence  
the fact that I'm alive  
here is intelligence and creativity  
beyond all I know with my tiny mind  
I can't even comprehend my soul  
the one that lives inside

'cos everything shouts God!!  
all creation points to You  
everything shouts Jesus, Jesus  
the way the life the truth...

You are awesome and eternal and You're there  
whether I see You with my eyes  
from the atom to the cosmos  
the beginning to the end of time  
God of the universe, the Architect, the Mind  
The Source of all life

And my physical being is so complex  
and my spirits deep, deep within this man  
and in it all I'm humbly on my knees  
and asking You who I am?  
I'm fully conscious in here, and desire to know You  
and where I fit in Your plan...

'cos everything shouts God!!  
all creation points to You  
everything shouts Jesus, Jesus  
the way the life the truth...

### 8 Heaven Bound

Heaven Bound, where the streets are made of gold  
Heaven Bound, the foundations precious stones  
Heaven Bound, yeah we're going to meet our maker

Is it a road or a highway? or a path right out of town?  
Is it a narrow hidden by-way where few can be found?  
Is it a stairway or an escalator? I think it's a rapture...

All creation, all your glory,  
all your loving and your peace abound  
it's coming fast, it's all true,  
we're on our way to the promised land...

Is it up there in the cosmos?  
Is it out there in the stars?  
Is the wedding banquet ready?  
Are there angels on the bars?  
Is it a stairway or an escalator?  
I think it's a rapture...

No stop signs, speed limits,  
nobody's gonna slow me down  
like a wheel, gonna spin it,  
we're on our way to the promised land...

Heaven Bound, where the streets are made of gold  
Heaven Bound, the foundations pretty stones  
Heaven Bound, yeah we're going to meet our maker

### 9 A Vision of God

A storm is coming from the North  
A great cloud with fire flashing forth  
Something like metal glowing in the middle  
This is a vision of God from the Book of Ezekiel

And there are four beings with human form  
each has not one face, each has 4  
a lion, a bull, an eagle and a man  
each has 4 wings with 2 outspanned

And they follow the spirit wherever he goes  
in the midst of the beings are burning coals  
with torches of lightning darting back and forth  
and by each being is a wheel that touches the earth

And the rims of the wheels are lofty and awesome  
they're covered in eyes, all about them  
and when the living beings move the wheels move too  
and when the living beings rise, the wheels they flew

above the heads of the beings there is an expanse  
the voice of God sounds like an army camp  
the expanse has a crystal gleam that is awesome  
and the sound of their wings is like abundant water

Above the expanse is a throne  
made of precious blue stone  
upon high sits Jesus the King  
glowing like metal and a fire within

He is surrounded by a radiance  
a rainbow in clouds its appearance  
such was the vision Ezekiel saw  
That he fell with his face, his face on the floor

## 10 Almighty King of Kings

As lightning flashes from East to West  
will be Your Second Coming  
There'll be no place on Earth  
to hide from Your presence  
This wickedness will pass,  
You'll rule in Truth and Justice  
There'll be no place on Earth  
that's not full of Your presence

The Almighty King of Kings  
with His faithful Bride  
co-heirs of Creation  
Ruling by His side

A Millennium of Peace,  
Every Nation shall Worship  
Every Cup says Holy is the Lord,  
all will flock into Your presence

The Almighty King of Kings  
with His faithful Bride  
co-heirs of Creation  
Ruling by His side

## 11 Oh My God

You made us the pinnacle of all creation  
Made in Your image no less  
Let me hold that in all humility  
'Cos that could easily go to my head

And You love us so much you sent Your Son  
Crucified and rose again  
To make us Co-heirs of all creation  
To pay the price for our sin

God in us, us in God, oh I don't know  
I'm overwhelmed by our place  
How will that feel, to be as one  
I'm overwhelmed by Your grace

Oh My God, Oh My God  
Beyond our wildest dreams

After we peel our faces off the floor  
We'll be eye 2 eye with God  
I'm already anticipating the Awe  
and I can't finish that off

And then life in Eternal abundance  
Your presence 100%

Oh God that is gonna be wild  
Oh My God, it'll be so immense

Oh My God, Oh Our God  
Beyond our wildest dreams

## 12 Coming Again

Jesus You are mighty to save  
You're the One that rose from the grave  
Jesus You are mighty to save  
You're the One that's coming again

Into the unknown  
Head first over the edge  
I hope you're there to catch me  
'cos I'm counting on Your pledge

I dream about tomorrow  
a full knowledge of You  
Safe in the arms of God  
to know everything's good and true

## 13 The End (2)

I think that's it then,  
I've reached the end of this race,  
Yeah I think it's over,  
there's nothing more to say  
Everything I've done was done for you  
so you'd know  
It was done in love,  
though some rejected every word I spoke

There's just one thing left to proclaim  
Jesus is coming again  
There's nothing else to say  
so get down on your knees and pray  
Ask Jesus into your heart  
Walk the narrow path  
There's only one path to redemption  
and Jesus is the road to salvation

So I think that's it,  
now everything is set in place  
Yeah it's practically over,  
there's nothing more to say  
So it's done  
& I really hope it opens your eyes  
So you're not deceived  
by satan and all of his lies

So I'm signing off,  
my work here is done  
The balls in your court,  
I hope you find salvation  
Everything I've done,  
I pointed to Jesus  
The Almighty King of Kings who died and lives  
and is coming to save us

## 60 Almighty Riddle

Some things are set in stone  
and some things are speculation  
Wisdom comes from sifting the facts  
from this growing pile of information

There's things that can be built upon  
like tetrads and the Jewish state  
And things are open to interpretation  
like dreams, visions and setting dates

God set the Almighty Riddle  
and we've been puzzling 2000 years  
And we're so close to solving it's mystery  
but the answers locked  
and the one with the key isn't here

We've been working on Gods numbers  
and I do believe the time is here  
But even when we get it right  
we won't know 'til we disappear

We don't know the day or the hour  
but we do know the signs to watch  
And it's happening all around us  
but only God knows the time, He's the one holding the clock

## 61 Boy with the Broken Heart

Digital angel, CCTV,  
it's all a part of the conspiracy  
Your data shadow, watch where you go,  
don't look now but you're being followed

The boy with the Broken Heart,  
has nothing left to give but art  
The boy with the empty head,  
knows there's so much that's left unsaid

The Bilderberger, trilateral aims,  
well you and I we're just a part of their games  
Their business of war, how I deplore,  
the way the rich manipulate the poor

The boy with the Broken Heart,  
has nothing left to give but art  
The boy with the empty head,  
knows there's so much that's left unsaid

## 62 Bad Shit

Here's some words you wanna mark  
hide these things inside your heart  
There's some bad shit down the path  
and it's about to make a start  
While everybody's talking peace

the whole world will want to believe  
you will not see what lies beneath  
the leaders lying through their teeth  
There's nothing like it you have seen  
here's the coming WW11  
This real bad shit is gonna be  
something you don't wanna see

A world leader takes the scene  
scares the whole world into peace  
for 1200 days he'll be  
the saviour that you wanna see  
Then declares himself a god  
if you don't follow face the mob  
your freedoms are gonna be robbed  
it's much too late to put a stop  
Russia and the muslim band  
will then invade the holy land  
and a neutron bomb they hadn't planned  
consumes their flesh where they stand

You know I hate to be a bore  
but after that it's all out war  
some trouble for this floating ball  
like there's never been before  
Then it's going nuclear  
you won't believe the news you hear  
whole nations will just disappear  
you won't know where to turn for fear  
And if you do survive  
the sun give ain't gonna give no light  
It's nuclear winter time  
millions more humans die

1/3 of the world will be consumed by fire  
1/3 of the water, the oceans will die  
1/3 of all the light will be removed from the sky  
1/3 of every living thing will lose their life

The march to armageddon later  
here come the biggest players  
the antichrist from Rome's invaders  
200 million strong from Asia  
Russians want their piece of cake  
so do their Muslim allied states  
They all surround the holy place  
to fight out for the real estate  
Then heavens gonna open wide  
there will not be a place to hide  
The King on white horse will ride  
with all the saint in line behind

## 58 NWO (Devil's Daughter)

Maybe there's no conspiracy  
but I fail to see how we came to be  
in such a mess through are excess  
and where truth counts less than what's dressed up as progress  
How the elite they're aloud to cheat  
we follow willingly, so much stupidity  
Where's common sense, who's driving this pretence  
where to question is rebellion,  
YOU INSULT MY INTELLIGENCE

'Cos the New World Order is the devil's daughter  
and she want's to steal your soul  
The trilateral commission, satan's decision  
through secrecy he's taking control

They don't want the truth, and they don't want the sooth  
who's driving this agenda? Well I won't surrender  
They hide bad choices through a fog of voices  
If you don't get what I'm about  
I SUGGEST YOU PULL YOUR BIBLE OUT

## 59 Party in Hell

Well I used to be a nice boy, and always obey my folks  
I'd walk old ladies cross the street, never laugh at rude jokes,  
I never cursed or swar or gossiped, never stole from anyone  
I respected all my girlfriends, even wash up for my mum

but as I stood and grew in stature,  
seemed I'd been taken for a fool  
all my friends were drinking, smokin'  
gettin' laid and breaking rules  
they told me of a party  
that was going on down below  
and I may aswell get started,  
'cos that's where the cool people go.

I'm going to a party in hell,  
I'm gonna misbehave so I can really rave  
I'm going to a party in hell,  
I'm going way down low to the inferno

So man I stole I lied I lusted after all there was to gain  
I new that I'd be taken, I revelled with no shame  
I can't wait to meet the women, I can't wait to taste the wine  
bring on the eternal party where they never call time...

Then came the day of my departing,  
yeah I took my final breath  
the gates thay stood before me,  
don't think the party's started yet  
so I'm knocking on hells door,  
I'm answered by a demon  
he cuffs me up, leads me off,  
then chains me in a dungeon  
so I says Be-elz man where's the party?  
where's the good times, where's the highs?  
from the death on his breath, I knew it was all lies  
it's cold here in the darkness, there's no-one 'round to ask  
OH MY GOD! I've been decieved, how long did I say this lasts?  
GET ME OUT!

There aint no party in hell  
I thought I was cool, I've been such a fool  
There aint no party in hell  
I don't know why I believed the lie  
There aint no party in hell  
If my friends are here, then they're nowhere near  
There aint no party in hell  
Take it from me don't be deceived

## 14 £End of the Road

This is the End of the Road  
All the dominoes are lined up  
They say there'll be Peace on Earth  
but I don't believe that stuff  
'cos when things are falling around you ears  
You'll wish you'd chosen Jesus while He was here

This is the End of the Road  
Every sign is in place  
While people say Peace on Earth  
Damascus, there won't be a trace  
and while Egypt's imploding, Israel will stand up  
to a Russian alliance,  
how can you still ignore this stuff??

We're at the End of the Road  
The Antichrist is here  
They say he'll bring Peace on Earth  
but he'll bring nothing but fear  
When will you believe me?  
All the dominoes are lined up  
We're at the End of the Road... we're going Home!

This is the End of the Road  
well I must say goodbye  
'cos there won't be Peace on Earth  
'til Jesus comes from the sky  
You said I'd lost my mind,  
now you know I'm the one you should've believed  
You may have mocked me,  
but I knew Jesus and I'm at Peace

## 15 Seeing Patterns (I think not!)

We have the amazing sign of Jesus in Heaven  
The stars and the Sun all line up  
Pan Starrs and Lemmon make a sword in the Heavens  
Am I just seeing patterns? I THINK NOT!

Then come the tetrads in 2014  
and in 2017 the sign in Virgo  
the 17 stars of Hydra waiting to devour  
Am I just seeing patterns? I THINK NOT!

Enter comet Ison, the brightest comet ever seen  
the 7 plagues sign in 2020  
and Jupiter's in Aquarius by 2021  
Am I just seeing patterns? I THINK NOT!

The One that paid the price  
will come back from the sky  
The One that died and rose again  
to pay the price for mortal sin

I DON'T BELIEVE I'M JUST SEEING PATTERNS..

## 16 Pin the Tail on the Donkey

I'll pin the tail on the donkey  
the one that worships a monkey  
enter Barry from Kenya  
the great pretender...

Yes we can, we want change, has the world gone deranged?  
A wolf dressed as a sheep, A nobel prize for no peace  
forged proof of his birth, doctored pix of his youth  
no college records and you still expect truth!!

His name makes 666 in so many ways  
there's dark genius behind the arrays  
he signs his name with a Phi, he knows what he's doing  
the Assyrian beast is heading for ruin..

Barak in Hebrew means lightning  
Bama in Hebrew means heaven  
Jesus says I saw satan fall as lightning from heaven  
Jesus says I saw satan fall as barak 'o' bama!!!!

he's in Jerusalem to walk the steps of the Christ  
to make a 7 year deal, a covenant of lies  
and then he's there in Berlin at the seat of satan  
he'll declare he's god mr. lightning from heaven!

I'll pin the tail on the donkey  
the one that worships a monkey  
enter Barry from Kenya  
the great pretender...

## 17 Train Crash

Adam met Eve, and the serpent deceived  
the military's funded by the banking machine  
the bilderberg are ruling from behind the scene  
the occult is still the root of this conspiracy  
it's like watching a train crash

Israel is back to upset islam  
can't the oil rich moslems give Palestine some land  
Jerusalem, the Temple Mount, the vatican wants in  
a jesuit pope, probably a templar and a mason  
it's like watching a train crash

this machine has too much momentum  
this train is travelling too fast  
the corridors of power will face their final hour  
'cos Jesus is coming and these things will pass

the floods, the twisters, the fires, the quakes  
if we remove the puppets the hidden hand still dictates  
the Church has gone quiet, there's a falling from faith  
nuclear war, 666, they'll bring their man to the stage  
it's like watching a train crash

they take their power with their sex magik  
the inherent paedophilia is so sick  
but they'll only rule the planet for one hour  
stand your ground against this tyranny and power  
it's like watching a train crash

God is love, God is judge and tribulation is now  
those that love Jesus will be Raptured out  
Jesus is the King and one day all will believe  
Adam met Eve and the serpent deceived

## 18 Prophetic Wars

You couldn't make this up, so God wrote it for you  
it tells of the end, and it's faithful and true  
Israel, Yes Jerusalem, lies before us all  
and I'll tell you what is coming,  
that you might heed salvations call

Israel and her neighbours are going to war  
Psalm 83, Isaiah 17, Damascus will be no more  
Then comes a major one, Ezekiel 39  
Gog and Magog, east vs west and if you survive  
Then comes Armageddon, He wrote this for you  
Then comes Armageddon, He wrote this for you  
and I'll stand, yes I'll stand and say he wrote it for me  
and for you, He wrote it for you...

And that's it, it's all over  
and that's it, it is done,  
God wins the big one  
Yeah, He wins through His Son

And that's it, it's all over  
and that's it, it is done,  
Jesus is coming  
and Armageddon is won!!

## 19 Can't you read the Signs

NATO are scheming, Iran's packing heat  
The Chinese are paying, Damascus is dead meat  
Koreans in fighting, the Jews are fighting back  
did they attack first or just respond to jihad?

The British are cheating from the city of loans  
The USA's drowning while the stock market floats  
Iraq has fallen, Afghanistan's toast  
Egypt's imploded, Libya's a ghost

Africa's been starved, Syria is burning  
Ethiopia's next, the tide is not turning  
Japan's polluted, the Euro's gonna dive  
Here comes Gog and Magog, 'cos Russia's standing by..

Can't you read the signs?  
THIS IS THE TIME, THE SECOND COMING

## 20 Come (7 Seals)

here comes the white horse...  
9-11, the day my innocence died,  
how could the elite do this to their own kind  
another false flag to take their agenda on  
and then they're stealing our freedoms, man this is so wrong

here comes the red horse...  
well they're 2 billion and they want sharia law  
they'll take peace from the earth with a big sword  
Middle East meltdown, they may consume themselves  
while they're sitting on the oil with untold wealth

here comes the black horse...  
an orchestrated collapse of all that we've made  
destroy the wealth and make the people pay  
financial meltdown, unjust scales in their hands  
the rich get richer while the poor can feed their plans

here comes the pale horse...  
an act of God or HAARP on a global scale  
earthquakes, tsunamis, and our safety net fails  
nuclear meltdowns, counters off the scope  
people in panic, not truth and no hope

then the martyrs in heaven  
ask God how much more can he take  
I'm sure the whole of heaven's groaning  
about what's coming our way

open the sixth seal...  
nibiru, elenin, tyche, planet-x, call it what you like  
but it's heading our way  
here comes a global earthquake, the sun gives no light  
every mountain and island will be moved out of place  
then there's silence in heaven for half an hour...

## 21 Post Dated

There's a sign in the Heavens calling us Home  
There's distress in the Nation, It's all over the Globe

I'll see you on the other side, if you make it through

I believed I could warn you,  
I kidded myself that you'd hear  
Now my Battle is over  
and I'm sorry that you are still here

The door way to Heaven was opened  
The word of God was spoken  
I'll see you on the other side  
The signs were in your face  
now everything's set in place  
I'll see you on the other side

## 54 Recurring Dream

recurring dream  
do you bear witness to things unseen  
T-1  
daylight fades, the long night's begun  
a future quake  
I'm Joan of Ark I'll burn at the stake  
2000 years  
You're coming back to dry our tears

I think that I may know too much about life  
you think I may think too deep  
but I don't wanna be part of all we like sheep

my faith in man dies  
the weight of hypocrisy and lies  
my God's declares dead  
by those who've never even read the words He said

## 55 Apocalyptic Trash

Apocalyptic trash, you might think it's gash  
but the book is coming true and it's happening near you  
The Bilderberg Group, they think they're above the law  
Their dirty secrets, well they're secret no more  
and their New World Order, I mean Global Governance  
They think their elite, I think they're an offense

Their banks are corrupt, enslave the world into debt  
destroying nations, while they reap the interest  
and they manipulate wars, to fill their pockets with oil  
millions suffer, to get their hands on the spoils

Well I am David, and they're Goliath  
They hold the power, I'm a pariah  
though I've only a sling, I won't be ignored  
I'll take of their heads, with their own sword

Playing their HAARP, and chemtrailing our skies  
Their Masonic creed, they twist the truth into lies  
I'm gonna keep the band playin', 'cos this ship is going down  
Keep the church praying, 'cos satan rules in this town

I wanna say that I'm awake  
Let the establishment quake  
I wanna say I'm awake  
I'M NOT AFRAID OF THAT SNAKE!!

## 56 Slippery Slope

I turn on the news, the planet's confused  
the future looks bleak, it's not safe on the streets  
another hurricanes due, a military coup  
the anchor says war, I can't watch anymore

because I don't see any, can't find any hope  
We're on a slippery slope  
I don't see any, can't find any hope  
We've bitten off more than we can chew  
and we're starting to choke

The banks are corrupt, a volcano erupts  
another teen in the dock, another nation in shock  
refugees have no food, free speech is removed  
There's infighting galore, I can't watch anymore

Then my mind took a quantum leap, wen't into overdrive  
we can see the signs in the sky,  
but we can't read the signs of the times.  
It can't be solved with every nation involved  
a solution aludes all our religious fueds...

## 57 Sorry if this Offends You

of course this is bad news  
'cos this wont be tolerated in heaven  
of course this bad news  
this can only go on so long

and I'm sorry if that offends you...

'cos there's no stealing and there's no cheating  
and there's no lying in heaven  
there'll be no tears, there'll be no orphans  
there'll be no evil in heaven  
there'll be no fighting, there'll be no war  
and no corruption in heaven  
there's only love and laughter, peace and forgiveness  
grace and belonging in heaven

I'm sorry if that offends you

of course this is bad news  
'cos this won't be tolerated in heaven  
of course this is bad news  
and it's time for you to choose

## 50 Occult Agenda

We're being controlled by secret societies  
their evil actions speak louder than words  
it's in their very nature to stay hidden  
while they're destroying Gods beautiful world  
freemasons are pulling the strings  
believing Lucifer is their angel of light  
the whole wide world will be theirs if they follow his lead  
and we won't notice what's hidden in plain sight

and who's the figure head to all this secrecy  
who's heading up this occult agenda  
Satan himself is behind this whole mess  
but I believe in Jesus and I won't surrender

they're using war for their evil agenda  
to remove any leader who just won't submit  
to their debt-laden control and corruption  
they'll crush any power who stand against their politics  
they've purchased nearly all forms of media  
to spout propaganda to brainwash the masses  
and they're manipulating things that our children learn  
as they're trained to comply in their classes

I believe in Jesus the King of Kings  
with his heel, He'll crush that serpents head  
He's coming back to bring truth and justice  
and that occult agenda can go to hell and stay dead

## 51 Do nothing & die slowly or act & die fast

for many years now, I've been aware of their motives  
I know the lies they spin to promote it  
'cos the occult and masonic, the secret and demonic  
have truly hidden themselves and their evil plans  
They're like a cancer in out midst, they take the truth & twist  
and twist, the 13 bloodlines of the elite, they still exist

Do nothing and die slowly or act and die fast

Some say you twist the answers to suit your questions  
we all know big business has bought our politicians  
but do you know how deep this goes?  
don't you wonder what you're not being told?  
They make the lies so big, the people come with no resistance

Do nothing and die slowly or act and die fast

I've come to rock the the apocalypse  
before satan gets all over this  
Jesus will take out the trash

Do nothing and die slowly, or act and die fast

## 52 Cherry Pickin Jesus

When I open Your book and I read Your words  
I see something different from the things I've heard  
Some try to tame You, make You meek and mild  
But I see a God who's truly wild...

So I'll fight with you and stand on Your truth  
Onward christian soldiers there's a battle here to fight  
we're not fighting flesh 'n blood  
but for hearts 'n souls 'n minds

Well there's a whole lotta cherry picking' going on  
and they're missing the truth about Your Son  
where there once were thorns there's now a crown  
at the sound of Your name every knee will bow

You went to the cross, yeah man that took guts  
You're king of kings and your judgement's just  
Eyes of blazing fire and a two edged sword  
With fire and brimstone You'll keep Your word

So I'll fight with you and stand on Your truth  
Onward christian soldiers there's a battle here to fight  
we're not fighting flesh 'n blood  
but for hearts 'n souls 'n minds  
Onward christian soldiers marching as to war  
with the cross of Jesus going on before

## 53 Left behind

You never thought the time would come  
but the saints have all been taken  
I wish you'd heard the warnings  
and come with us before the earth's shaken

Now life is filled with fear, the man of sin is here  
Nibiru's coming through  
and you'll face Armageddon too

and they're trying to make you take the mark  
to buy food for your family  
but trust me on this one, stand your ground  
'COS IF YOU DO YOU'LL BE LOST FOR ETERNITY

You've one final chance for faith to arise  
but you'll be put to death if you choose what is right

I wish we'd all been ready  
I wish we'd all followed the light  
but Jesus has been and gone  
and you've been left behind

## 22 30,000 Bombs

turn this off, 'cos this is bad news  
no keep it rollin' if you can handle the truth  
unless I'm in a wierd paranoia here  
it looks like they might do it this year

I don't wanna dress this up as something it's not  
but I've got this wierd truth and it's all that I've got  
now I'm on this ball they're gonna blow it up  
I don't think I'm paranoid but I read this stuff

they're gonna blow it up

well I read the book where Jesus died for me  
2000 years ago they hung him on a tree  
and the very same book where my Messiah dies  
tells me of the end and it looks like my time

some say Pandoras box is open  
I think it's worse, Pandoras mirror's broken  
here comes our 7 years of bad luck  
this is really gonna be a head fuck

30,000 bombs, the world is littered with these things  
and it wont be long, is anybody hearing these warnings

they're gonna blow it up...

## 23 The Future looks Bright (2)

Well we dropped all the bombs and we can't see the sky  
but there's a cold beer in the fridge for my buddies and I  
We got the contract to rebuild the wells  
and now we own them all I want a future in sales

The future looks bright, everything is alright  
'cos our mans at the top, I think he might be god

Well the markets have crashed but my options were put  
they made me a packet and my futures look good  
Our mans on the scene, he's made a deal for peace  
we got the moslems 'n the catholics with their imams 'n  
priests

Yeah the earthquakes are up, and the plants have gone down  
the power is out and there's fallout around  
but I'll sit back and crack out another cold beer  
I got my space in the D.U.M.B. I got nothing to fear

The future looks bright, everything is alright

## 24 Judgement Day

Are you ready for Judgement Day  
for everything you've relied upon to give way?  
Are you ready for the end of days?  
Everything you believed is about to change

Are you ready to meet your maker  
looks like it's coming sooner not later  
Are you ready to stand before God  
'cos everything's about to kick off...

and when you're in trouble will you call upon God?  
ask Jesus to save you or face Gods wrath?  
and when you're in trouble will you call upon Jesus?  
will you bow the knee and ask His forgiveness?

to a lost and blinded generation  
that won't see the truth 'til it stands up and bites them  
to a lost and blinded congregation  
there's only one road to salvation...

'cos our mans at the top, I think he might be god  
and the Christians have gone,  
yeah they got it so wrong...!@£\$%^&

## 25 A Black Pope (Jesuit Oath)

A black pope runs the war and banking machine  
He will pledge allegiance to Obama the beast

Enter Francis meek and mild, Peter the roman  
Introducing the false prophet that serves satan  
with his worship of Mary, he's taken the jesuit oath  
to lie and deceive and mislead to declare God is the pope  
he's taken his jesuit oath!!

A black pope runs the war and banking machine  
He will pledge allegiance to Obama the beast

Enter Francis meek and mild, a jesuit pontiff  
from the Vatican's seedy depths with satanic motives  
with his worship of Mary, he's taken the jesuit oath  
to lie and deceive and mislead to declare God is the pope  
he's taken his jesuit oath!!

he says you don't need to believe in God to go to Heaven  
& if you follow him on twitter you'll get more indulgence  
Just follow your conscience that's all,  
you can be saved by works  
This is antichrist and it's occult, this is the harlot church

A black pope.....

## 26 Time's Up

Time's up, it's over, it's decision time  
The age of grace is over

## 27 The Beast is Rising

The Beast is Rising

Don't put your faith in the system,  
'cos the system is going to fail  
Get reading God's book,  
'cos man it's telling a tale

The Beast is Rising

They've got their Nuclear Bombs,  
I believe money's the beast

It's taken their souls,  
and Hell awaits those that feast

Their secret societies,  
their Banking dynasties  
cant you feel the evil in the system,  
this isn't theory, this is conspiracy

The wars are for oil, the oil is for money  
the monies for power and the power's for greed  
Few have the power, few make the wars

the wars steal money that society needs

The one's with the money control all the wealth  
and they're living like gods while the rest live in hell

The Beast is rising!

## 28 Those that Seek

you don't need a sage to see the end of this road  
you don't need a map to know which way the wind blows  
the ending is already told, water has more value than gold  
the reaper will overtake the one that sows...

the lifeboat is narrow but the ocean's wide

the prince of destruction is waiting in line

the ending is suddenly now,

the harvesters beaten the plough

Atlas has shrugged and the order's full of pride

those that seek know the best place to hide

those that watch can read the signs

hope and redemption all creation cries

there's still time to drink from the glorious vine

but when the last glass is drained,

the winepress is empty again

the wrath will be felt one final time

those that seek know the best place to hide

those that watch can see the signs

## 29 I Believe

I believe Jesus is God's beloved Son

I believe there's a global conspiracy going on

I believe there is some bad shit coming down

I believe it's a time you don't want to be around

I believe that the Bride of Christ will be taken away  
and the Rapture will happen, we're so close to that day

I believe Jesus is coming again

To rule with peace and justice for a millennium

I believe in the tribulation

the abomination of desolation

will bring unbelievable destruction

and we all need salvation

I believe if your trust is in Jesus you will be saved

If you repent of your sin and confess your wicked ways

and if you miss the rapture there's a chance to choose

but you'll be martyred for your faith if you do

I believe in Jesus, God's beloved Son

## 30 What will Heaven be like?

When I get to Heaven will God break out his best cigars?

Sit me on a comfy sofa, with a beer and a guitar?

I'm sure God's got technology which 'll blow us all away

Teleports 'n lightships to take us billions of miles into space

Is that heaven above us? or are they just stars?

Are there mansions with swimming pools,

will we drive interstellar cars?

What will heaven be like? I don't know...

but I want to go...

I've only seen one planet, and this one was beautiful once

there's billions more of them out there

and I'm sure God's got a psychedelic one, just for fun!

And a Lego one, and a quiet one

and a diamond one, and a bouncy one

and a golden one, and a loud one

and a hard rock one,

and I'll spend a zillion years there just for fun!

What will heaven be like? I don't know...

but I want to go...

No eye has seen, no mind has conceived

what God has prepared for those that love him...

1 Cor 2 v 9

## 46 666

smart cards in a new world order

RFID tags and global debt

every single transaction recorded

no more cash and implants will be next

thier fiscal empire is raping nations

while we've still famine on a scale unknown

the lawless and oppressive banking empire

they'll keep on feeding 'til there's nothing they don't own

when Iron Maiden sang it, that was cool

but if a christian says it,

he's deluded and acting like a fool

because 666 is almost a reality here

all the pieces are in place it's so very very very near

don't take the mark of the beast

## 47 Salvation

I believe in Yehovah, creator of all...

My sin was nailed to a rugged cross

when they killed Your Son Yahushua

Crucified by religious Jews who rejected our Messiah

I believe He rose again from the grave on the 3rd day

Conquered death and sin forever,

opened up the age of grace

This is salvation, revelation

I know Heaven awaits those who confess Your name

I confess my sin, I know that I was lost

and I bow the knee, Your Son paid the cost

I receive Your grace as a free gift

there's nothing I can do to deserve this

This is salvation, revelation

I know Heaven awaits those who confess Your name

I believe in Yahushua, the truth, the life and the way

and there's no other path back to Yehovahs grace

## 48 Prophet of Doom (Part1)

eternal life with my family and friends

and after we've been the bride we'll be the family of God

the future sounds rosy, for those that believe in You

for those that believe in Jesus

I believe You died for me and my sins

but I still got those questions I don't understand

well maybe I do, maybe I do

'cos there's a wickedness on this planet You disapprove

there'll be none of that going on in paradise

and there's a price to be paid for our sins

and actually I don't want this going on in my family either

I understand there's a price to be paid.

You died for me, now I'd die for You

cos now I get it, what a difficult place to be

You died for me, now I'd die for You

I am not Jesus, but I'm one of Your sons

and now they're calling me a prophet of doom

for pointing out the elephant in the room...

## 49 Awesome (a song of worship)

You're the God of love, but You're a God we need to fear

You're the God of heaven, but You're the God that made hell

You're the God of life, but You're the God that made death

You're the God of creation, in the end you'll bring destruction

How can I begin to comprehend You,

if I'm just a rung above primeval slime

How can I begin to understand Your ways,

Your ways are far above than mine

but I gladly bow the knee,

'cos I can see that You're awesome

You're the God of mercy, but You're the God of judgement

You're the God of revelation, but You're the God of silence

You're the God of reward, You're the God of damnation

You're the God who's everywhere,

but You're the God who stays hidden

## 42 Prophet of Doom (Part2)

i'm not controlling this ship anymore  
i've set controls for the heart of the Son  
my hands are off the wheel,  
You can guide me in...  
i let go of the reigns, i surrender  
'cos i see how this world has ended  
i don't really get why you called me to this  
but I'll keep pointing out that elephant  
'til i'm consumed by your bliss  
'cos the tormenting eternal inferno  
the retribution for lost souls  
awaits for those who refuse to bow the knee  
and if none heed my warning  
the fires of hell are still burning  
i know i obeyed my call  
i stood as a watchman on the wall  
and now they're calling me a prophet of doom  
for pointing out the elephant in the room  
and if none heed my warning  
the fires of hell are still burning

## 43 Sodom and Gomorrah

Stranded in Sodom and Gomorrah  
I'm in the valley of dry bones  
I'm building an ark just before the flood  
I'm Stephen, before he gets stoned..

While God blesses one, He'll destroy another  
Mercy meets judgement, go warn the oppressor  
'Cos we're staring at the tribulation  
and God's judgement's gonna come  
How I wish it was all good news  
But multitudes are not prepared for the coming Son

I spent 3 nights in the whale  
I spent years in the wilderness  
prepare the way for the coming King  
few will be saved and billions left..

While God blesses one, He'll destroy another  
Mercy meets judgement, go warn the oppressor  
'Cos we're staring at the tribulation  
and God's judgement's gonna come  
How I wish it was all good news  
But multitudes are not prepared for the coming Son

## 44 Signs of the times

I'm just reading the signs, be it stars, or history  
the bible, the world, the church, the occult or conspiracy  
Prophecy's being unpacked, God's revealing the book  
the signs are everywhere if you stop to take a look

Dr. Owour, mighty man of God, the prophet calls for rapture  
there's many intelligent minds Joining the dots together

Is God pelting the States? Is He striking Japan?  
Is He rattling Turkey? Will satan bomb Jerusalem?

There's people watching the stars  
people calling for rapture  
earthquakes in various places  
armies bombing crap out of each other

There's people claiming their Jesus, Israel against Iran  
Animals Dieing all over the globe  
Nuclear nightmare Japan  
The love of many's gone cold  
The love of money's gone wild  
Surveillance out of control  
Knowledge increased by miles

You might call me crazy and that it's always been this way  
but Jesus is coming to rescue the saints  
it's gonna be a glorious day  
GOD'S BRINGING PEACE BACK

## 45 They make war

How do the banks make money? They make debt  
How do the banks make debt? They charge interest  
How do the banks make money? They print more  
How do the banks make more? They make war..

The road to absolute power  
Is littered with dead bodies  
Whistleblowers, activists, presidents, and countless millions  
And when they can't squeeze out a drop more  
They'll do it again, and take us to war!

How do the banks make money? They make debt  
How do the banks make debt? They charge interest  
How do the banks make money? They print more  
How do the banks make more? They make war..

## 31 God is Love

God is Love, Yes He is,  
He offers unreserved love to all  
God is Love, Yes He is,  
He pours out His love on all creation

and He is Holy,  
which means He cannot tolerate sin  
and for Heaven to remain Holy,  
then no sin can ever come in

God is Judge, and He will,  
for a Holy God of Love there is no option  
God is Judge, and He will,  
for a Holy God of Love must make decisions

'cos He is Holy,  
which means He cannot tolerate sin  
and for Heaven to remain Holy,  
then no sin can ever come in

God is Love, God is Holy, God is Judge  
& God must Judge, 'cos God is Holy and God is Love

God is Love, yes He is....

## 32 Waiting for the Rapture

satan's running riot, the church has gone quiet  
the bilderberg are meeting, ignored by the mainstream  
(and i'm in my bunker baby)  
the war drums are beating, the propaganda's misleading  
the signs are in your face, this is the end of days

and i'm in my bunker baby  
waiting for the rapture  
they say i'm just spreading fear  
but i'm only trying to warn ya  
i'm sorry but everything is not ok  
that's why i'm waiting for the rapture  
to take the bride away

while the good do nothing evil is prospering  
there's no knowledge of God, the truth has been lost  
(and i'm in my bunker baby)  
it's the return of the King and all creation is yearning  
and the signs all say Jesus ain't for away

and i'm in my bunker baby  
waiting for the rapture  
they say i'm just spreading fear  
but i'm only trying to warn ya  
i'm sorry but everything is not ok  
that's why i'm waiting for the rapture  
to take the bride away

## 33 Return of the King

Gentlemen step aside,  
for the Return of the King  
Riding a white horse,  
peace and justice He brings  
The lion lies with the lamb,  
the earth will be transformed  
Love and peace are His statutes,  
the battle is the Lords

He's Gods beloved Son, He's the righteous One  
The saints will gather and sing,  
All Hail! The return of the King

His eyes are blazing fire,  
His tongue a 2 edged sword  
The heavens will recede  
at the return of the Lord

A day like no other,  
a day of darkness and despair  
satan is cast in the pit  
and his demons can follow him there

Rules with a rod of iron,  
yes every knee shall bow  
Fear God's mighty power,  
because Jesus is ruling now

He's Gods beloved Son, He's the righteous One  
The saints will gather and sing,  
All Hail! The return of the King

## 34 The Future Looks Bright (1)

If my sin was too much, though your Son paid the price  
then I'll give up my vice and I'll pay with my life  
If I got it all wrong and presumed on your grace  
I'm gonna change my ways and seek more of your face...

The future looks bright, everything is alright  
They've got their man at the top,  
and I won't worship him as god!!!

Well I won't bow the knee to anyone else  
No man, no idol, no religion, no wealth  
And I won't survive long 'cos I'll shout out the truth  
'til they take off my head, and I hang up my hooves

I've been reading Your book and I know how this ends  
You're taking Your Bride, Your family and friends  
and I hope You take me or I'll pay with my life  
to be in Your presence, Your co-heir and wife

There's only One God!! Jesus is God, Yahweh is God  
Yehovah is God, Jahushua is God, The Holy Spirit is God

### 35 But what about..?

you can have it all  
if you sow a little money seed of faith  
just a little prayer to access Gods eternal grace  
no need for fear or trembling  
because Jesus, He's your mate  
free salvation with an optional life change...

but what about Holiness?  
what about Gods wrath?  
what about dying to yourself  
and carrying your cross?  
what about the narrow way  
that only few will find?  
is the church doing God a favour  
by covering up the bits they think you won't like?

what about discipline?  
what about sacrifice?  
what about servitude  
and if you love your life you'll die?  
what about repentance and confession of sin?  
what about the God of Noah  
who destroys all flesh and only 8 get in?

what about tribulation?  
what about abusing grace?  
what about the martyrs?  
'cos they're the heroes of our faith  
what about rejection and suffering and pain?  
what about all men hating you  
because you believe in Jesus name?

you can have it all, if you'll give it all away  
a life of servitude to access Gods eternal grace  
come with fear and trembling  
because Gods power is so great  
free salvation, but not an optional life change...

### 36 Let's start a Bank

Let's start a bank,  
and we'll give the money away  
Let's not charge interest,  
'cos that how we've been enslaved  
Let's start a bank  
& print a currency of our own  
& back it with integrity and trust,  
then give it away, not loan

Let's spend billions and trillions  
Cleaning this place up  
Let's pay off debts  
& fill up the poors cup

Let's start a bank,  
and we'll call our currency FAIR  
let's get the presses rollin'  
we'll make money from thin air  
JUST LIKE THE BANKS!

Let's pay the best minds we have  
to work together  
to find alternative energy  
that's clean and free forever

The debt only exists  
to a handful of banking elites  
& a big fat greedy computer,  
that doesn't need to be clothed or eat  
So you Morgans, Rockefellerers, Rothschilds  
We don't want your evil reign  
We don't want your debt and corruption  
Let's play the banks at their own game!  
LET'S START BANKS!

### 37 None comes close

Jesus is the door! knock! It will be opened unto you  
'cos salvation lies in the true Son of God,  
not the false messiahs...  
Yeah, you know the one!

The One with the amazing star that heralded His birth  
where God spoke from Heaven for all the people on Earth  
and said this is My beloved Son and I AM well pleased  
He spent 40 days in the wilderness while the serpent teased

The One that healed the lepers, was followed by the masses  
the religious people hated Him, 'cos He whipped their arses  
fulfilled 300 prophecies from the Old Testament  
got taken up in the clouds and called the masses to repent

Prophecy, I don't know everything  
I'm just following the signs and it's so not about me

The One that walked on the water, raised people from the dead,  
fed 5,000 with just a bag of fish & bread  
turned water to wine, gave sight to the blind  
They put thorns on His head, then He rose from the dead

So tell me, tell me please  
Does any other Messiah come close?  
Not Muhammed, Not Matreiya, Not Buddha, Not Apollo  
Not the Antichrist, Not the Roman/Grecian pantheon  
Not even the Pharaohs.... NONE COMES CLOSE!!!

Conspiracy, secret societies fulfilling Bible prophecy  
You can choose the Son of God or satan for eternity

### 38 God Will have His Will

Did I mention WWII?  
Did I mention nuclear war?  
Did I mention tribulation?  
'cos the signs say it's at the door  
God will have His will...

The first living creature says come behold a white horse  
(the revealing of the beast)  
The second living creature says come behold a red horse  
(a bloody war from west to east)  
The third living creature says come behold a black horse  
(they'll force you to take their chip)  
The fourth living creature says come behold a pale horse  
(disease, despair the planet is sick)

Then a star falls from Heaven, kills a third of all life  
the world goes dark, the sun will give no light  
then satan falls from heaven, the beast is incarnate  
God will shake the earth,  
every island will move out of place  
followed by the seven plagues, then the power builds  
You're at Armageddon

God will have His will...

And then Jesus returns, crushes the head of the beast  
takes his rightful place, and rules in justice and peace

### 39 The Bride of ~Christ

The bride has been chosen, for the King of Kings  
Rescued from tribulation, cleansed from mortal sin  
Washed as white as snow...

The King of Kings has chosen His bride  
All creation rejoices, it's the wedding of all time  
No words to describe the pageant

A day beyond what we can imagine  
The King of Kings has chosen His bride  
She's beautiful and holy in a robe of white  
The band will play, the wine will flow  
A feast beyond anything we know  
The King of Kings has chosen His bride

Yahushua, King of Kings, Lord of Lords  
Do You take this spotless bride?  
To have and to hold, to love and protect  
for eternity and all time?  
And the Almighty says I do

The bride of Christ do you take the King of Kings  
to honour and obey,  
for better for richer and in health  
forever and a day?  
And the bride of Christ says I do..

### 40 Lament (Valley of Death)

I will walk through the valley  
of the shadow of death  
I will sing you praises  
'til my final breath

It's not in my head, it's all around me  
the end, my friend, and i'll bow before the Almighty  
It's in the book, it's in the world  
but you wouldn't hear me  
maybe somebody did, did just one choose to be free

you called me to stand, to go against the flow  
now my heart is broken, i'm just a soldier going home

I will walk through the valley  
if you want me to  
the shadow of death all around me  
if it leads to you

I'm trying to write goodbye but can find the words  
it's already all been said, & i'm aching that nobody heard  
without a doubt I'm going home  
it's all around me and that is how I know I'm going home

### 41 Alternate Reality

I'm watching bankers starve the world  
& I'm watching illegal and unjust wars  
I'm watching nuclear meltdowns and pollution  
While the vast majority continue to snore

I'm watching a surveillance state be built  
I'm watching the march to world war three  
I'm watching the sheep led to their slaughter  
While they're sitting in front of the propaganda machine

Welcome to my my alternate reality  
am I the only one taking this seriously  
'cos I'm on this ball with its finger on self destruct  
and Jesus's blood is the only hope I've got

I'm watching perversions all over the net  
actually I'm not, 'cos I don't wanna see  
I'm watching a charade of politicians  
being controlled by secret societies

I'm watching the signs in the heavens  
& I've been reading Gods holy book  
I've been watching prophecy fulfilled  
& the church doesn't even want to take a look
